Requirements for [redacted]

1. Recent information indicates that there is a shortage of modern medical X-ray equipment, and also that many other types of medical and laboratory equipment are hard to get. What countries supply most of these items to Poland?

2. What country produced the electron microscope equipment used by Subject in his research in Poland? What is the age, condition and degree of sophistication of such equipment in comparison with that Subject has seen elsewhere in Europe and in the U.S.?
